

TECHNIQUES FOR SYNCHRONIZING ANY OF A PLURALITY OF ASSOCIATED MULTIMEDIA ASSETS IN A DISTRIBUTED SYSTEM

Automatically synchronizing any of a group of associated multimedia assets is described is described. A particular one of the set of distributed multimedia assets is modified and the others of the set of distributed multimedia assets are then synchronized based upon the modification. An update edit list corresponding to the modification is generated which is then automatically forwarded to the others of the set of distributed multimedia assets. The update edit list is then used to synchronize each of the distributed multimedia assets to the particular multimedia asset so modified.
